

## Dr. Chi Success Story

**By Robert**

Before seeing Dr. Chi, my overall health was above average yet I was unable to pinpoint the 1 -2 areas I felt were preventing me from good health. I went to the Dr. Chi seminar in 2010, felt his preventive and progressive health ideas would be beneficial, and scheduled a time for the Fingernail and Tongue Diagnosis. Within 3 minutes. Dr. Chi noticed my liver needed to be cleansed and my skin wasn't getting the oxygen it needed and he pinpointed on my fingernails and skin how he predicted the problem .

Dr. Chi had found the problem when previously there were no answers. A product by Dr. Chi called "liver chi" was beneficial and I made a point to eat more vegetables for the skin while going outside more often for fresh air and staying away from metals. A toxic liver can cause many other diseases. A very low cost visit and supplement with Dr. Chi found the problem. If you are feeling slightly fatigued and/or lack strength over the course of a day, a powerful yet low cost visit with Dr. Chi would make a big positive difference in your life.
